

12 Position Rack
block name: HC900rack-12pos.dwg

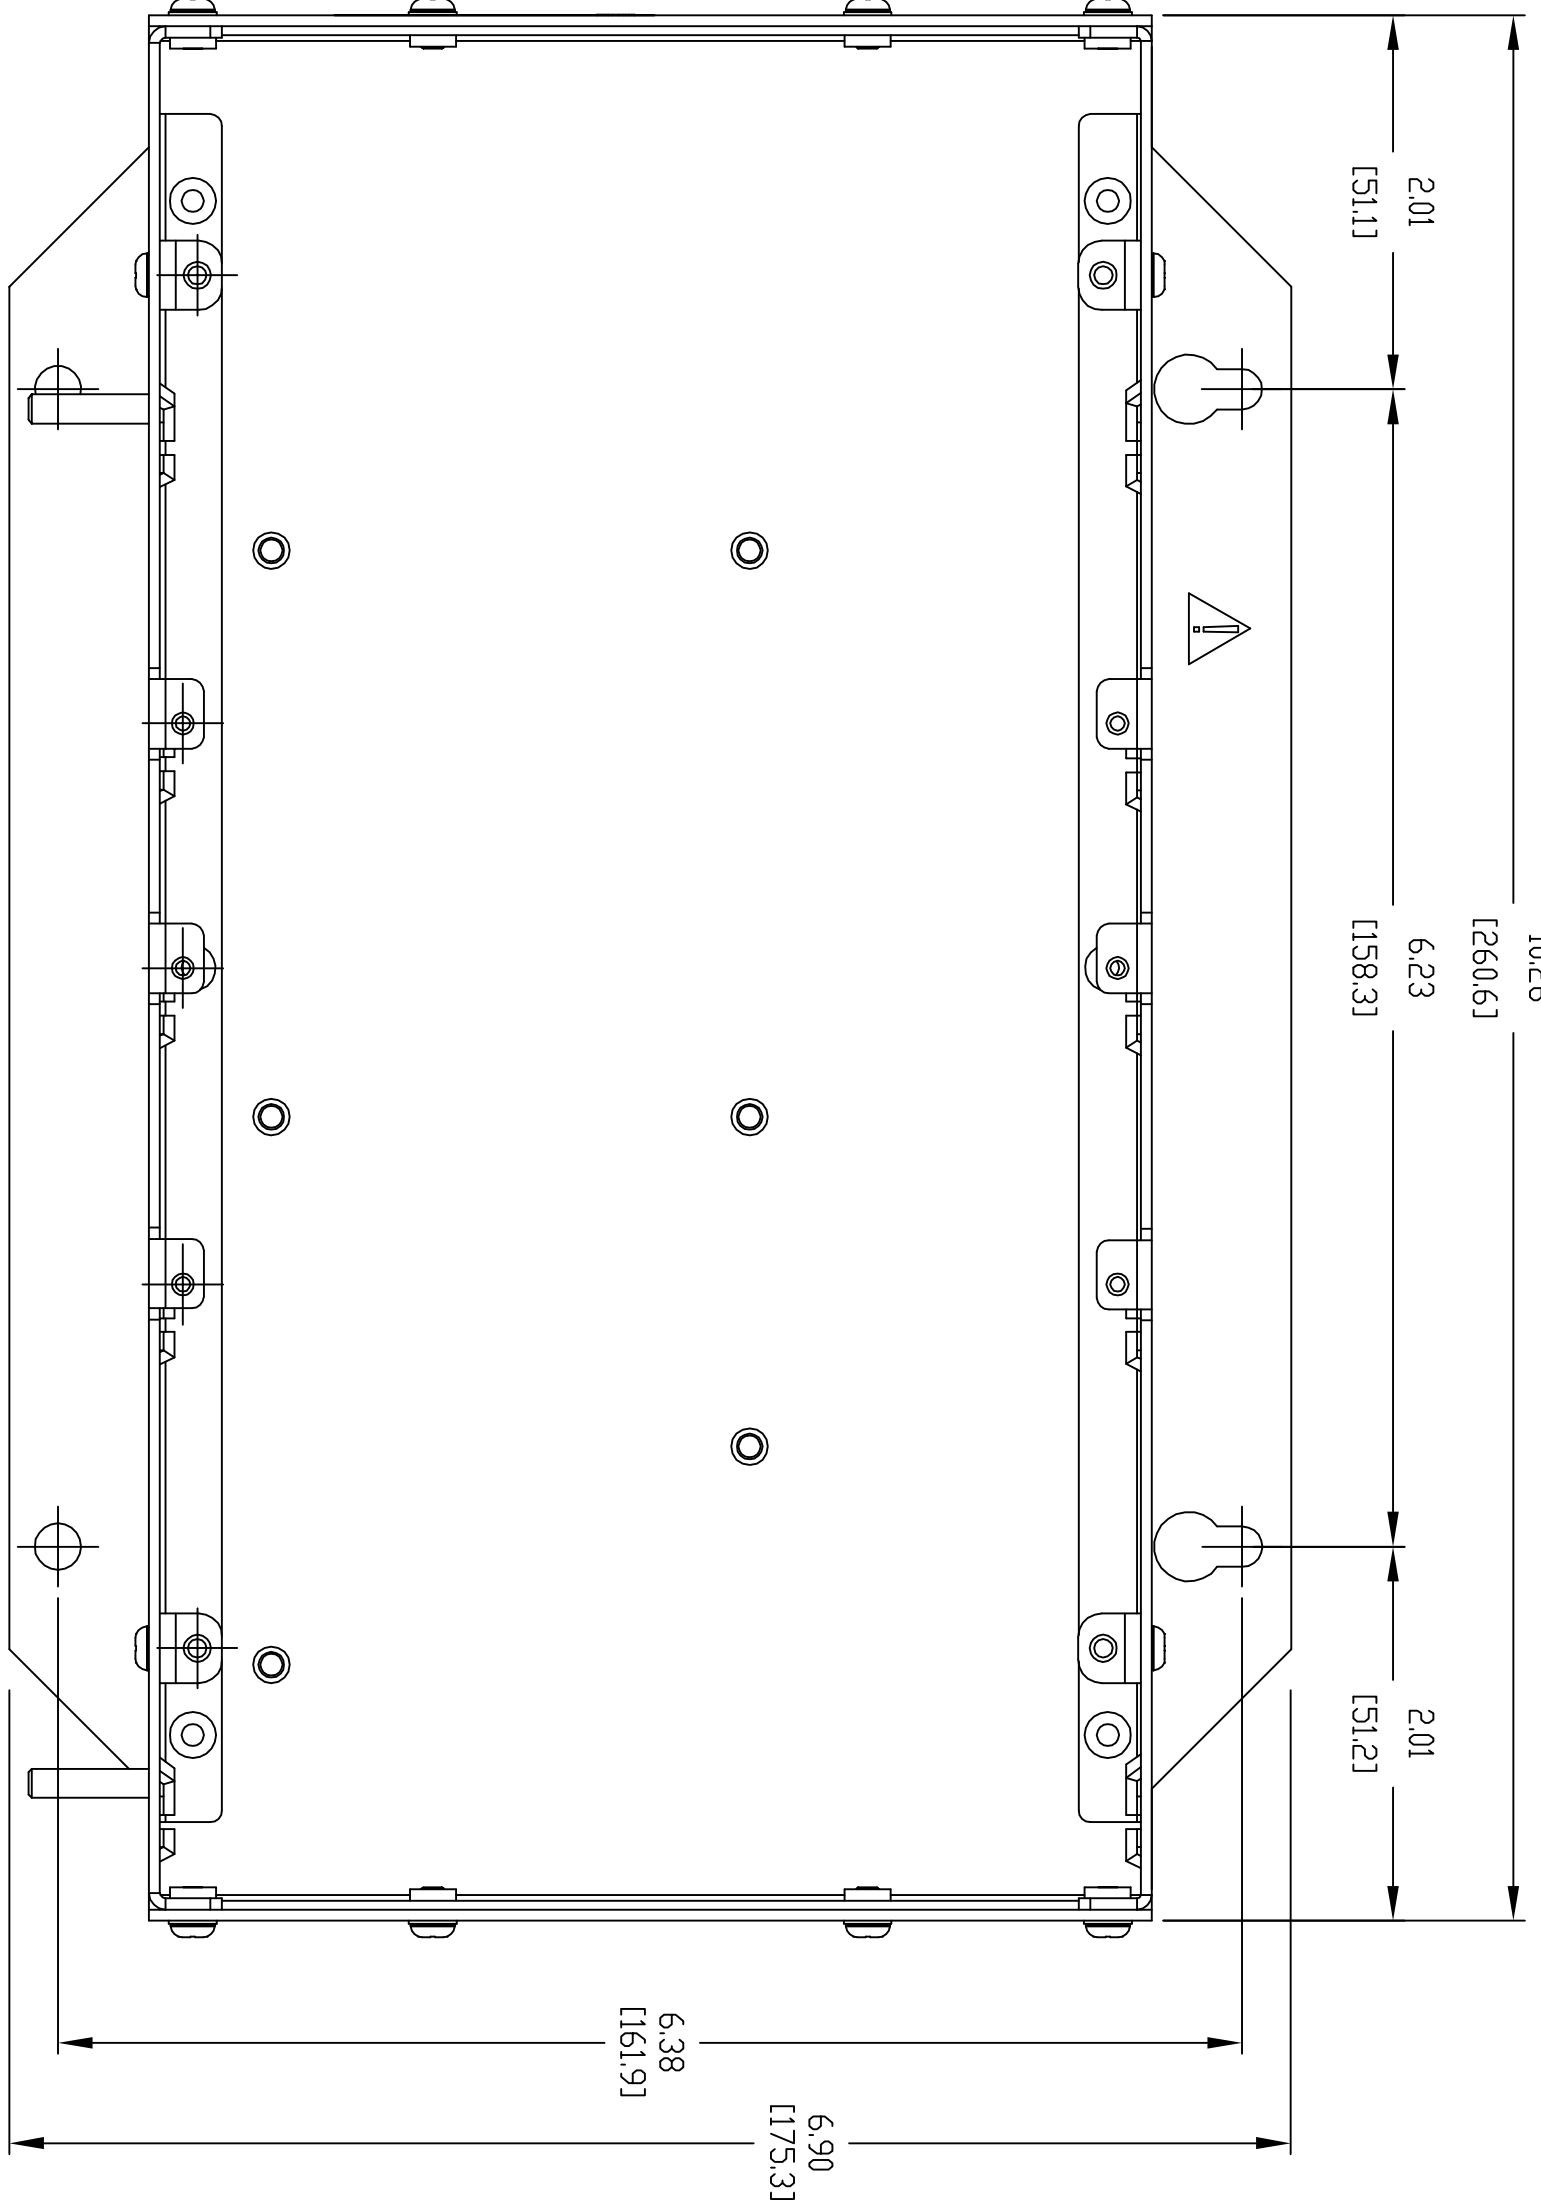

8 Position Rack
block name: HC900rack-8pos.dwg

4 Position Rack
block name: HC900rack-4pos.dwg

Redundant Supply Module Rack
(shown attached to 12 Position Rack)
block name: HC900-rsm-rack-12

Redundant Controller Rack
block name: HC900rack-red-ctrlr.dwg

- General Notes:
1. Insertion point of all modules is the lower mounting screw.
 2. To mount modules in racks insert appropriate block into rack at lower mounting screw position.
 3. This drawing is layered as follows:
0 (Object): Module outlines and general notes
Rack: Rack features
Dim: Dimensions and block specific notes
ModuleMtg: Mounting points for modules (both on modules and in racks)
MtgCenter: Rack mounting centers
